

Special Offer: Get 10 % discount on featured SmartBuffers!

Valid until 30th April, 2011

Why transport water?

Our SmartBuffers are a better environmental alternative!

Phosphate buffered saline with Tween™

Perfect as:

- Washing buffer for ELISA
- Western blot washing buffer
- General wash buffer in other immunoassays

| Art no | Pack size: | Sol. vol: | Offer |
|-------------|-------------|-----------|-------|
| 09-8902-100 | 100 tablets | 500 ml | -10 % |

Tris buffered saline (TBS)

Use as:

- Dilution agent in Western blotting
- Buffer for molecular biology applications
- Tissue and cell culture buffer

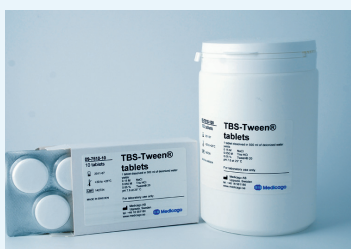

| Art no | Pack size: | Sol. vol: | Offer |
|-------------|-------------|-----------|-------|
| 09-7500-100 | 100 tablets | 500 ml | -10 % |

Tris buffered saline with Tween™

Use for:

- General wash buffer in immunoassays
- Western blotting
- ELISA washing procedures

| Art no | Pack size: | Sol. vol: | Offer |
|-------------|-------------|-----------|-------|
| 09-7510-100 | 100 tablets | 500 ml | -10 % |

Phosphate buffered saline (PBS)

Perfect for:

- Tissue and cell culturing procedures
- Immunoassays
- Microbiological procedures

| Art no | Pack size: | Sol. vol: | Offer |
|-------------|-------------|-----------|-------|
| 09-8912-100 | 100 tablets | 500 ml | -10 % |
